

Electro TM Freeze[®]

Batch Machines

Batch Machines

Create your signature frozen treat with impressive profit margins with a durable, easy-to-use batch freezer from Electro Freeze®. Operators can achieve significant profits while crafting high-quality products your customers crave.

From dairy-free and vegan ice cream to Italian ice, gelato, and sorbet, our versatile batch freezers open the door to endless menu possibilities. Available in various sizes to match your production needs, each machine is built for long-lasting performance and consistent results.

MANUAL SPEED CONTROL

The [B12E](#) & [B24E](#) feature a mechanically simple yet highly efficient design, reducing maintenance needs while ensuring seamless operation. Ideal for gelato shops, ice-cream stands, and water ice businesses, this machine provides the flexibility to adapt to changing menu trends and customer demands. With the B12E & B24E, you will be able to maximize product output without compromising quality. The machine's intuitive operation makes it easy to learn.

- Cam Door Latch
- Built-in Faucet
- Flex Hose
- Digital Timer & Alarm
- Extra-Large Discharge Chute
- Oversized Feed Hopper

VARIABLE SPEED CONTROL

The [B12V](#) and [B24V](#) are built for reliability and feature the Patented Variable Speed Overrun and Viscosity Control. This system allows operators to easily adjust settings to ensure their product retains the right consistency with every batch. Engineered for durability and performance, these machines streamline production, for maximum output without compromising quality. Its high-capacity design supports a healthy bottom line by optimizing efficiency and reducing labor costs. Invest in a batch freezer that evolves with your business; delivering smooth, high-quality frozen treats with every batch.

- Cam Door Latch
- Torque Control Technology
- Built-in Faucet with Flex Hose
- Extra-Large Discharge Chute
- Oversized Feed Hopper
