# Frozen Beverage Machines

Since 1960, Electro Freeze® has led the frozen beverage industry, pioneering the first slush freezer designed to run on a neutral base for Dairy Queen known as the Mister Mistee. Our high-performance frozen drink machines continue to set the standard; delivering premium frozen cocktails, slushies, and frozen beverages with smooth, consistent quality every time.

Offer your customers refreshing natural-fruit slushes, frozen lemonade, frozen cappuccinos, or slush/soda combinations while expanding into the booming frozen cocktail market.

## MEDIUM VOLUME COUNTERTOP

The Electro Freeze® [877HB](#) is a high-performance, countertop frozen beverage/slush machine designed for fast, and easy service; helping operators save on labor costs while delivering consistently smooth, high-quality beverages.
